

New US/MX Cross-border Roadfreight Solution

At a Glance:

- **Full-Service Solutions:** Our expansive infrastructure and sophisticated vendor network provide a reliable cross-border one-stop solution, from trucking to warehousing and customs clearance.
- **Bilingual Single Point of Contact:** A single touchpoint for all phases of the shipping process provides a seamless customer experience door-to-door.
- **Strategic Presence:** Conveniently established at the US border near Laredo's key transit point, for efficient freight management and customs clearance.
- **Flexible Transport Solutions:** A diverse fleet of freight transport modes, including FTL (Full Transport Load), LTL (Less than Transport Load), flatbeds, and temperature-controlled, for tailoring to your specific freight needs.
- **Automotive Industry Expertise:** Extensive know-how of automotive logistics enables us to efficiently serve your specific commodity shipping needs.
- **Smart Visibility Tracker:** Real-time, web-based, monitoring tool tracks the exact location, condition, and security of shipments at any point of transport.

Enjoy unrivaled,
seamless cross-border
freight transport
door-to-door.
